We'll talk about projects like Pebble Mine, Chuitna Coal, etc. What are the trade-offs? Is it possible to strike a balance?

Friday Dialogue was conceived by the Roundtable Center for Mediation and Community Dialogue. The purpose of the Friday Dialogues is to bring people in the community together and provide a safe forum for listening, speaking, and learning. We welcome and respect diversity of opinion. We believe that the constructive response to divisive issues is dialogue rather than polarization. "Let's talk!"
